# VEER FABRICATORS

## *Introduction :*

Veer Fabrication is a family-run business in the industries town of Ahmedabad. Owing to its rapid growth after the millennium, the company continues to expand and is today one of the leading designers, Consultants and fabricators of Tanks, pressure vessels and air receivers for different streams of the manufacturing industries.

Now with over Twelve year of experience, the company has proven track record as experts in the design and fabrication of bespoke products to serve the worldwide air compressors, petrochemical, air, gas and oil industries.

We take enormous pride in our quality assurance and standards Veer Fabricators regularly updates and invent in computerized systems which allow us to design and implement bespoke quotations and project management programmers, making our turnaround of quotations both highly-efficient and competitive.

Our highly-skilled term of designers use the latest technology and software to ensure that our design service is second-to-non in quality and efficiency, for the manufacturer of specialize fabrication across all industry sectors. Our website permits us to receive CAD drawings with speed and ease which means that we can continue to provide added value engineering.

## *Our Team*

We have an adroit group of professionals and they are the best in the industry. Our professionals are extremely qualified, experienced, dexterous, talented and focused towards the growth of the organization. They work in close coordination and are disciplined as well. We organize workshops and seminars for keeping them abreast with latest trends and techniques.

## *Our team includes:*

Engineers, Technicians, Administrators, Quality controllers,  
Warehousing personnel, Transportation personnel, Packaging experts

## *Range of Manufacturing :*

Air Receivers upto 150 cubic mtr. And above.

- Pressure Vessels & Bullet tanks, Propane & Gas storage
- Air Oil separator tanks
- Air Receivers & Air Bottles
- Filters
- Air Compressor Tank
- Water Cooled After Cooler
- Ammonia Tank & Tanker
- Transport, Storage and Recycling Equipment
- Oxygen Tank & Nitrogen Tank
- Water Tank
- Storage Tank S.S./M.S.
- Cylindrical Tank
- Skids, deck, mainframe, Sub-frame, support & motor support, trolleys for Air Compressors

## *Fast Delivery, Good Price*

Virtually all the steel we utilize is purchased in bulk direct from manufacturers mills, and our huge inventory of raw materials ensures our customers the fastest possible delivery at realistic prices. We also have special arrangements with many major truck lines that mean that our top quality vessels can be delivered to your facility for far less than you.

## *Why Us?*

We are highly regarded for our wide and comprehensive product range. Our parameters of quality control have earned us a reputed name in the industry. We have a dedicated group of professionals and they are immensely experienced. Our sophisticated infrastructure has enabled us to streamline the Processes of the organization:

- Quality assured products
- Sophisticated infrastructure
- Comprehensive product line
- Ethical business practices
- Spacious warehousing
- Major transportation facility
- Reputed clientele

**Facilities :** We have also facilities for the following services :

- Radiography
- Stress Relieving
- Normalizing
- Sand Blasting / Shot Blasting
- Complete NDT, Ultrasonic Facilities

### **Welding Procedures :**

Our investment in a Plasma-Arc Welding Units and SMAW has allowed us to vastly improve our highly-effective and competitive manufacturing service. Not only has this given us the opportunity of an automated welding process, but has also enhanced both the weld quality and our work capacity.

Work is done as per the standards set by IS, ASME etc. Codes of Manufacturing. Welding is done by welders who are qualified and accepted by various inspection authorities or by our own Welding test procedures as per the codes set by the ASME, IS etc. A complete record of the welding performances like WPS, PQR, WPS is maintained.

### **Raw Material Testing :**

Any raw material that is purchased, is tested at recognized and authorized laboratories, and then chemical & mechanical tests etc. are found satisfactory the material is cut for further processing.

### **Raw materials generally used for manufacture :**

We manufacture vessels from M.S., C.S., SA 516, IS 2002, IS 2062, S.S. 316, 310, 304 / 304L, SS 316 L, Aluminum or as per the requirements of our clients.

### **Govt. Registration :**

1. Sales tax  
Our registration No. VAT No. 24072303011  
Our registration No. CST No. 24572303011
2. PAN card no. : AMBPP4316R  
TAN No. : AHMB04704A  
SSI No. : EM2 24 007 11 060152  
D&B DUNS No. : 87-092-3688
